
Dear CCSC Families,

This year we will be using Seesaw to share your child's classroom academics. For many existing parents in the K-6 school you would already be familiar with this platform.

In 2020 your child will be posting samples of their learning to Seesaw and we will be providing a "Success Criteria " for each task.

Each activity that is posted will come with a description of the task, called the "Learning Intention" along with the "Success Criteria" for that activity. You can view the Success Criteria by clicking on the thin grey box at the top of each sample posted, this box says, "In response to...".

The Success Criteria is an intentional list of approximately 2-3 skills the students are explicitly working on in the classroom. This criteria is the area of their learning where we like to see effort and therefore growth. It is also relevant for you when discussing your child's personal effort in the classroom.

Seesaw is private; you'll only see posts created by your child. Each child is able to have up to 10 family members connected to their journal. We would love for you to join your child's learning portfolio so that you can keep track of their progress and learning habits throughout the year.

Please note, the SeeSaw platform is not a tool for direct communication with teachers. Although there is the capacity to respond to 'Announcements', ***teachers will not*** be responding to any direct messages.

Please direct all communication to your Homeroom teacher via their school email or through the Main Office.

If you have already used SeeSaw at Central Coast Sports College, your child's portfolio for 2020 should have already appeared on your account. For families new to SeeSaw, please sign up now following the steps below:

1. Click on the link below that is relevant to your child:
