News

New Advisory Spaces

Our new advisory spaces are looking amazing with the set up of the students individual work spaces.

Big Picture

In the Big Picture program and also for students in years 10-12 we are rolling

out new desks (being installed over the coming weeks). Each student will have one as their main work space and will not need to share it. The desks have two drawers that can be locked with students being given their own key to secure any valuables. Please note these keys are unique to each desk and if lost, a \$20 fee will apply to get a replacement cut. We would recommend families get a spare key cut and keep the original safe at home. The office will keep a spare key if a student needs their desk opened.
