## The Newsletter

Term 2-Week 1 27 Apr - 1 May

### Whole College News

#### Term 2 - Welcome Back

We look forward to seeing many students back on site this term and would like to remind families that students can attend on campus or remotely as has previously been communicated. We are continually taking advice from the Federal and State governments and will inform families if there are any requirements to change attendance patterns based on the COVID-19 information available. The general advice is that schools are safe places for students and if your child can attend school they are welcome to come.

#### Online Learning

For students who are working from home please note that the Hybrid Learning Program document that we sent a link to last week has had some minor updates. In particular references to some online websites for students in K-8 have been added to assist with accessing some of the platforms that students access. Parents looking for guidance for students learning from home are encouraged to re-look at the Academic Program of this document for students from K-8. Students who attend onsite do not need to worry about the details within these documents as the teachers and coaches will instruct students as per normal.

The link to the Hybrid Learning Program is here: [https://docs.google.com/document/d/1\\_ZcpwCoHt\\_2MI9Zh9D2I9KoMDixgeftHXmjFTa2G-VI/edit?usp=sharing](https://docs.google.com/document/d/1_ZcpwCoHt_2MI9Zh9D2I9KoMDixgeftHXmjFTa2G-VI/edit?usp=sharing)

#### Transport and On Site Arrivals

---

Families are reminded that the College buses will be

operating from tomorrow. Please note, as communicated last week, the bus runs have been adjusted slightly to accommodate more appropriate travel times. The College website has been updated to reflect the new bus stop times. Links to the bus times can be found here: <https://ccsc.nsw.edu.au/about-ccsc/location-transport/>

As we implemented at the end of Term 1, we will require all students and staff to wash their hands thoroughly when arriving on site. We will continue having students who are dropped on site to depart from their cars out the front of Building 27 where they will be directed to the toilet block in Building 25 for the hand washing session. All students who arrive via the College bus or Busways bus will also be directed to the toilet block for hand washing.

## Music

---

Mark Brown, our new Music teacher has arrived and will hit the ground running from tomorrow morning. Our music program will temporarily run in the Science classroom while we await approval for a portable building that we intend to bring on the site. We are very lucky to have someone of Mark's calibre join the CCSC team and we look forward to many of our students enjoying learning music under his instruction.

## Senior College

### Brand New Desks

---

During the term break we took delivery of 94 brand new student desks that had been delayed from the start of the year. There was a massive effort during the break with members of the teaching staff assisting in

putting these together. Our HSC space and all of our Big Picture spaces have now been completed with respect to our student desks. Our students will enjoy having an individual desk to complete all their academic work at and we are very proud that for many students this will bring a significant increase to their productivity.

## Junior College

### K-2 Amenities Renovation

---

We are very happy to announce that the K-2 toilet renovation has finally been completed. This project took much longer than originally planned with significant challenges. We have converted what was originally a male toilet that was in a very poor condition into 8 modern unisex toilets. These toilets are central within the K-2 building and will allow our younger students access without having to leave the building.

## Sport

We would like to welcome to our team Tanya Brown who we announced was joining CCSC last term and has finally arrived and will be taking on the role of Head of Multi-sport. Tanya and her team have drafted the following two letters for students in our Multi-sport program covering some of the activities for the first few weeks of term. For K-2 students please go to this link. For students in years 3-8 please go to this link.

### Hybrid Learning program

---

Term 2 sees the continuation of our Hybrid learning program with on site students participating in our normal program and remote learning students

following their google classroom activities from home. Our coaching teams have been working overtime to provide activities for our remote learning students with loads of fun activities, skill developments, AD programs and virtual games. Here is our video overview of the Remote Learning Program. We had a lot of fun making it. Hope you enjoy.
