COVID-19 Update

As the majority of our students have returned to College over the first few weeks of this term we would like to inform parents that we will be adjusting our learning from home program. Families who are still planning to have their child work from home will just need to make contact with their home room teacher and coach to negotiate appropriate times to check in with them throughout the week. This will ensure students know what work they should be focusing on and receive individual support as needed.

Starting from Monday this week students will also be greeted when coming onto the College site by staff who will have hand sanitiser available to help with cleansing their hands. We believe this will be more efficient in assisting students navigate the morning and ensure that we are practising good hygiene habits.

Mid Term Break Reminder

Parents are reminded that the Term 2 Mid Term Break is coming up soon. Please note Friday the 5th of June and Monday the 8th of June are part of the long weekend for CCSC students and staff as we collectively can put aside time to “Sharpen our Saws” and take this time to renew and refresh.

We are also pleased to inform parents that the term dates for 2021 have been released and are available on our website. We trust this will assist families in their long term planning. For details please visit:

Safe Bus Travel and Appropriate Use of Technology

We would like to remind families to let their children know that when travelling on the bus they must abide by the College bus travel rules. When seat belts are available students must wear them at all times.

It is unacceptable to be walking around the bus or to not wear a seat belt if it is available. Students not doing the right thing will be reminded and may be excluded from bus travel for periods of time if they are not able to abide by the appropriate rules. The driver's core responsibility is to ensure the safe transport of students and we appreciate parents' support in this endeavour.

We would also encourage families to discuss with their children the appropriate use of technology. We have had some reports from younger students who have been exposed to inappropriate videos and games on mobile devices. We would encourage our older students to be mindful of those around them when using their devices.

Music Program

Our music program is proving very popular with the students. Take a look at the short video for a brief overview.
