→ ATHLETIC RECOVERY & PERFORMANCE ENHANCEMENT

Take advantage of new technology to speed up and enhance your recovery & training. We spend so much time training to reach our goals, whether it be general health & fitness, Triathlons, Brazilian Jiu Jitsu, Bodybuilding, CrossFit, weekend sports or working on a beach body that we often don't invest enough time and energy into recovery, or even realise the importance of recovery. Up until now an effective recovery plan may have been difficult to implement, but new technology is changing all that.

At CryoPlus we offer a one-stop shop with several world class recovery methods now available on the Central Coast. Each treatment can either be used as a stand alone treatment or combined for supercharged recovery and performance enhancement. Treatments range from a quick 3 minute full body Cryotherapy session to an entire recovery day where you can combine Cryo with time in the Infrared sauna, an hour in the Float Pod or an hour in our NormaTec compression therapy lounge.

CCSC OFFER: 10% Discount for the CCSC community on treatments.
